GINIWA®

Maintaining a healthy balance of the microbiota in our body is essential for the women's inner well-being.

Developed specifically for women, Giniwa® offers a range of probiotic solutions for the intimate health of women of all ages and condition.

For oral use, our 100% natural solutions promote the maintenance of the balance of the vaginal, urinary tract, intestinal and mammary microbiota.

1 CAPSULE / DAY · 100% NATURAL · ORAL · GLUTEN & LACTOSE* FREE

• For pregnant and breastfeeding women.

GINIWA M

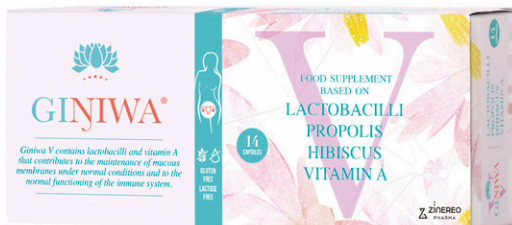

Boosts the immune system during pregnancy and prevents infections. During breastfeeding, it helps strengthen the baby's immune system through breast milk and reduces the severity of inflammatory pathologies such as atopic dermatitis.

GINIWA V

Helps prevent vaginal infections and their recurrence. Promotes the balance of the vaginal microbiota and protecting against vaginitis and vaginosis.

• For women of all ages

• For women of all ages
• Suitable for pregnant and breastfeeding women.

GINIWA U

Helps prevent urinary tract infections and their recurrence. Promotes the balance of the microbiota and protecting against cystitis.

* No for Giniwa M
